

## **Expectation™ Intimate Massage Gel**

Ten uses for this amazing massage cream:

1. This massage gel is a one-of-a-kind product. After searching hundreds of massage products on the market, I have found nothing to compare to its prestige. It is completely free of oil, water, and preservatives. After applying this, your skin will feel as soft as silk.
2. This is our number-one-selling product, and people buy this more for dry skin than for massage. From your head to your toes, no matter what part of your body is dry, it will no longer be with continual use of this product. Indulge your skin in absolute luxury; you will not be disappointed.
3. This gel is commonly referred to as healing potion. It reduces the harsh effects of eczema and soothes the pain of this skin ailment.
4. With the anti-aging nutrients of berry extracts combined with the cooling and warming agents of mint, this gel is a superior facial moisturizer. It is very light to the touch and perfect for oily skin and the driest of skin.
5. After removing your eye makeup, apply this gel on the eyelid and to the underneath tissue around the eye. The cooling effect feels wonderful and helps lighten dark circles for men and women.
6. Apply this gel to your nail bed and the cuticles of your fingers and toes. It softens the tissue, speeding the healing process of annoying hangnails. It also adds luster to the nail bed.
7. To the delight of many moms, this gel is an amazing diaper-rash emollient. It delivers a slight moisture barrier between wetness and baby, allowing the skin to more freely breathe. After using this gel, your baby's bottom will be as smooth as a baby's bottom should be.
8. For the most luscious of all lips, apply this gel as a lip protection. With each lick of your lips, the taste of berries and mint will leave you wanting more. Your soft, kissable lips will look, feel, and taste amazing.
9. For all the many dog lovers out there, your precious pooch will love the taste of this gel. They will think they have died and gone to dog heaven.
10. Most importantly, this product was designed for couples massage, which happens to be leading the spa industry in revenue. Expectation™ is an amazing massage product, nontoxic, free of dyes, and can be safely used on the entire body. Please refer to the bottle and catalog for further information.
